

## Human Rights & Wrongs.

We hear a lot about human rights  
and a lot about human wrongs.  
I want to hear "that we're all connected"  
tripping from our tongues.  
We see our leaders setting a tone  
and we join in with the division.  
I want to see how the world can be  
if together we write a revision.  
We smell the fear of our enemies  
and we forget they're really our friends.  
I want to smell the fruits of peace  
on the earth tree humanity tends.  
We taste the bitterness in conflict  
between families, neighbours and states.  
I want to taste fairness, justice and joy,  
at ever increasing rates.  
We touch the lives of others each day  
for good and sometimes for ill.  
I want to touch the world with love  
please join me if you will.
