

The Final Solution - Neil Newcombe

So all people are equal and have "human rights"!

Tell that to the Nazis who would have given in argument!

A "Final Solution" – this euphemism for a pogrom of the Jews.

The banality of evil - which will spread

If good people sit back and do nothing.

That day in January 1933 was a black one for the world:

The day the Nazis came to power and Hitler was chancellor.

The Fuhrer united Germans by uniting their hatreds.

Jews were intimidated, had their money and property expropriated –

And were encouraged to emigrate.

Then later came the camps!

The camps, the camps, the concentration camps-

We all know about the camps:

Nazi wickedness, Aryan deceitfulness!

Gas chambers masquerading as showers.

A human being perhaps feeling

Some obscure instinct of consolation,

As he/she is asphyxiated by poison gas.

The genesis of this genocide

Was Hitler's beggary on the streets of Austria,

Where jealousy of the wealthy Jews

Produced an ominous resentment and anger.

Anger can turn to hate

And hate lead to murder.

And mass murder it was -

In a mind-blowingly sickening scale.

At the Wannsee Conference 20/1/1942

Heydrich, the ruthless and ambitious,

Designated 11,000,000 Jews in Europe for extermination!

If there is a god - have these murderers been judged by him?
