

PEOPLE

People eh?
People with their problems
and petty paranoias

People with their problems
and petty paranoias
and worries

People with their problems
and petty paranoias
and worries
and stupid niggling hates

Niggling hates and people pains.

Well people ARE a pain
A pain in the bum
A stab in the back
A fib or a lie

I lie. I do. I say hi to people
when I mean DIE
Die people. Go away.
Leave me alone.
Get your face out of my space.

The human race eh?
Oh ya like what a concept.
What a joke
What a sick joke
What a sick tragic joke
too tragic to be funny.
But then I think,
why am I rolling around the floor in hysterics?
It's not tea time.

Ah of course it's people.
I mean you've got to laugh at them haven't you? Eh?
Ah well. Back to work I suppose
Back to people.

Send in the next patient please Miss Fleming.
