

My Neighbour

I wish my neighbour told me
about her condition
Because of my condition
is same as her
I hope to relieve her of a burden
That's tired her for holding it
The two loads will be easily carried if divided
She is like the sister that my mother did not give birth to
I see her face in the morning and evening
If it were not for my neighbour near me, I would not bear the
burdens
That exhausted me
My companion all my years, I feel so happier in her presence near
me
And I support it in its accommodation and travel.
