

Savior

By Kia Kennedy

Miss Riach

Changed my life

She put me on the right path

Gave me something to believe in

Her lessons helped me When

in a way

My heart was bleeding

She made my brain jump

My blood Pump

I could truly never repay her for what she did for me

If there was a timeline of my life

Since meeting my heroine

The past is just a grey area

History

Oh Mother

By Kia Kennedy

On the 24 hour clock

My heart bleeds at the realisation you never stopped

A true force of nature

Day and Night

Oh mother

You really are the light

A gentle touch

The warmest hug

A heart so big

The whole world is held in it

You bounce back

Like you could never go flat
An endless self-sacrifice
For the almighty essence of life
Duty upon beauty
The foundation for the branches within every tree
I am you and you are me
You should know that
Since I can remember
You've inspired me
Oh mother
We can over complicate it
Although it's all there is
A Mothers nature and her kids
Where would we be without the joy you give
