

## **Pebbled Teaching Forms:**

**By Rhianna Levi**

Pebbled stones bargained and gathered in necessary continuation,

For education in this country is stepped on vicariously with no appearance in strawberry funding.

There's a strive to meet fulfilment regardless, heightening vegetable patches and swing sets on barren sand.

Teachers supply stones to all, no hesitation involved,

And their hearts beat fast in notion with students' understood needs,

Because they are educators, and forever care.

Splitting their own life in quarters to give upmost all to following generations.

No side steps in lesson or pastoral guidance planning,

These people enhance galaxies in the lives of human stars and mythological atoms.

My many thanks to glistening colleagues, veterans and anew,

For each day you place yourself in this profession, you're the reason why communities discover more radiance.
