

## EVERGREEN NATURALIA

No longer wild and beautiful  
You've been abused for far too long  
Drained of all your resources  
As pollution steals your natural song  
Burned and stripped but not beyond repair  
Your truth is beautiful  
Your truth is evergreen

You are vast and open  
so overly exposed  
Nature needs its hiding places  
To heal, to thrive, and grow  
Privacy needs to be restored  
Your truth is beautiful  
Your truth is evergreen

The water should flow freely  
The meadows should be lush  
It shouldn't be a novelty  
To spot a huge green bush  
Your truth is beautiful  
Your truth is evergreen

The animals should reign supreme  
As creatures need their homes safe, warm and green  
Reclaim your voice  
Transform once again  
Your truth is beautiful  
Your truth is evergreen
