

My mother once said,
"look after this earth
look after its greens,
water it with love,

don't let it die,
bring it peace,
Where the flower beds lie,
Where the ocean breaths"

My mother once said,
"some people are cruel,
They kill all the land,
and make themselves a fool

Be careful of the ignorant my dear,
They put the innocent animals at fear,
They hunt down what they say is theirs
And leave the bleeding nature in tears"

My mother once said
"you'll save the earth,
you'll bloom its greens,
you'll fill it with love,

you won't let it die,
you'll put it in peace,
you are the key
for our environment to be free."
